## PROFILE SUMMARY

I am a dedicated Software Engineering student with a strong passion for web and mobile app development. I have real-world experience teaching web programming and mentoring in UI/UX design, with a focus on hands-on learning and creative problem-solving. My projects showcase expertise in modern technologies such as Dart, Flutter, and Laravel, and I strive to build robust applications that enhance user experience through thoughtful design.

## EDUCATION

### IDN Boarding School

Majoring in Software Engineering with a focus on Web Development and Flutter App Development.

Bogor, Indonesia  
July 2023 - Present

## EXPERIENCE

### Mobile App Development Instructor - Vocational College of Sepang

Voluntary Teaching Program

- Delivered basic Dart programming lessons, introducing core syntax and fundamental programming concepts.
- Led hands-on Flutter practice sessions to build simple mobile applications using basic widgets and layouts.
- Coordinated with fellow instructors to combine theory and practical exercises for effective student learning.

Sepang, Malaysia  
June 2025

### Team Leader - WL Aluminium

School Final Project

- Led a team of developers to build a responsive company profile website integrated with a custom CMS.
- Oversaw task planning, progress tracking, and code quality to ensure on-time project delivery.
- Designed the overall UI/UX structure using Figma, aligning layout with user and content needs.

Bogor, Indonesia  
January 2025 - May 2025

## PROJECTS

### Navinera [School Project] | Dart, Flutter, Gemini AI, Firebase

- Engineered a Gemini AI-driven planner to generate personalized itineraries based on location, time, and budget.
- Structured personalized schedules into Morning, Afternoon, and Evening blocks, optimizing daily travel experiences.
- Implemented Firebase Firestore for real-time syncing and secure management of user itineraries.

April 2025

### SnapAttend [School Project] | Dart, Flutter, Google ML Kit, Firebase

- Developed a facial recognition-based attendance app using Flutter and Google ML Kit.
- Implemented geolocation tracking to prevent fake check-ins and ensure authentic user presence.
- Integrated Firebase for real-time data storage, user authentication, and attendance history.

February 2025

### BlooCart [School Project] | Dart, Flutter, Provider, Shared Preference

- Designed and developed a responsive e-commerce UI with a focus on clean layout and user-friendly experience.
- Implemented Provider for efficient state management, ensuring smooth navigation and real-time UI updates.
- Integrated Shared Preferences for secure, persistent user login and session handling.

November 2024

### Tickety [School Project] | PHP, Laravel, Tailwind CSS, Laravel JetStream

- Developed a scalable ticketing web platform using PHP and Laravel, enabling users to browse and purchase event tickets.
- Designed a responsive and modern UI with Tailwind CSS to enhance visual appeal and usability.
- Utilized Laravel Jetstream to create a secure admin dashboard for managing tickets and monitoring user activity.

June 2024

### Qur'an Web [School Project] | HTML, CSS, JavaScript, Bootstrap, API

- Built a user-friendly Qur'an website with responsive design using Bootstrap for clean layout and accessibility.
- Used JavaScript to fetch and display Qur'an data dynamically from a public API, enabling real-time interaction.
- Integrated API functionality to provide features like search, Chapters navigation, and Verses display.

October 2023

## SKILLS

---

**Languages :** HTML/CSS, JavaScript, Python, PHP, Dart

**Frameworks :** Bootstrap, Tailwind CSS, Laravel, Flutter

**Tools :** VS Code, Android Studio, GitHub, Figma

**Soft Skills :** Problem Solving, Time Management, Public Speaking, Mentoring

## CERTIFICATES

---

- **Learn JavaScript Programming Basics** - Dicoding (2024)
- **Create Front-End Web for Beginners** - Dicoding (2024)
- **Learn Web Programming Basics** - Dicoding (2023)
- **Learn HTML Basics** - SkilVul (2023)
- **Learn CSS Basics** - SkilVul (2023)

## ACHIEVEMENTS

---

- **Gold Medalist - ONSB (Olimpiade Nasional Sains dan Bahasa)** - Informatics Category (2026)
- **Gold Medalist - ONSP (Olimpiade Nasional Sains Prestasi)** - Informatics Category (2024)
- **Gold Medalist - NOSeC (National Online Science Competition)** - Informatics Category (2023)
- **Gold Medalist - KSB (Kompetisi Sains Bidang)** - Informatics Category (2023)
- **2nd Place - IDN Boarding School Internal Competition** - Web Design Category (2023)
